Comments from who watched the show last year

•Guest from The Netherlands

The explanations were helpful and interesting. Even without much comprehension of Japanese, I could understand some of the jokes and they made me laugh more than I had expected.

•Guest from Indonesia

The whole performance is so impressive, it's almost magical. The voice of the singers are so powerful and showed the disciplines and hours dedicated to master it.

•Guest from United States

NOH theater is often touched on as a part of most Theater History/Historiography courses in the USA, so it was really great to be able to see it live.
